# Simulates Attack

A high school  
student spent the  
weekend of Jan.  
1973 and when it  
was over, he  
was a changed  
person. He had  
been through a  
simulation of a  
major attack on  
the city, and he  
was now a more  
responsible citizen.

Paul, a student at  
the local high school,  
said, "I don't know what was  
going on."  
He was getting his hair cut last  
week at his barber on the  
corner of the city. He was  
there at the time of the  
attack, and he was  
in the line of fire.  
He was shot in the  
arm, and he was  
in the hospital for  
a week. He was  
now a more responsible  
citizen.
